## PROFESSIONAL SUMMARY

Highly motivated and results-oriented Web Developer with a solid foundation in the MERN stack and modern web development practices. Driven by a passion for building scalable, user-centric, and high-performance web applications that solve real-world problems. Recognized for a sharp problem-solving mindset, fast learning ability, and the capacity to perform effectively in fast-paced, technology-driven environments. Skilled in writing clean, maintainable code and collaborating within agile teams to deliver reliable digital solutions. Seeking full-time job, internship, or remote opportunities where I can bring value to innovative development teams, grow alongside industry professionals, and contribute to technology that makes a difference.

## SKILLS

- HTML5, CSS, JavaScript, Tailwind CSS, React.js, Next.js, Node.js, Express.js, MongoDB, SQL, Python
- Version Control & Deployment:** Git, GitHub, VS Code, Postman, Vercel, Render, Netlify

## WORK EXPERIENCE

### Frontend | Anees Software House | 08-2022 - 06-2023

- Worked with HTML, CSS, JavaScript, React.js to create interactive and dynamic web pages.
- Ensured websites were visually appealing and functioned well on different devices.
- Applied various techniques to enhance website speed and performance.

### Backend | Remote | 2024 - Present

- Understanding how servers and databases work using Node.js, Express.js, and MongoDB.
- Learning to create APIs that help websites send and receive data.
- Exploring how front-end and back-end systems connect with each other.

## PROJECTS

### Khan Brothers Engineering & Solutions | Company Website | Client Side: [Live Link](#) | Admin-Panel: [Live Link](#)

- Built a full-stack, responsive corporate website using Next.js, Tailwind CSS, Express.js, and GraphQL (Apollo Server).
- Developed a custom admin panel for dynamic content management, showcasing services, projects, and company information.

### College Management System | Web Application | [Live Link](#)

- Developed a full-stack college management platform with authentication, role-based access, and academic management modules.

### Online Garments Store | E-commerce Web Application

- Built a complete e-commerce store with dynamic product management, user authentication, and order processing system.

### React Portfolio | Website | [Live Link](#)

- Created a responsive personal portfolio showcasing projects, skills, and achievements using modern React and Tailwind design.

- Learned the fundamentals of **databases, data warehousing, and data pipelines** in a professional environment.
- Gained practical experience with **SQL and Python**, performing **basic data cleaning, transformation, and querying** tasks.
- Practiced **data ingestion and processing** using **Apache NiFi** and **Databricks**, following simple **landing, staging, and publishing workflows**.
- Conducted **introductory exploratory data analysis (EDA)** to understand dataset structures, missing values, and data patterns.
- Collaborated with team members on small-scale data tasks, learning professional workflows, documentation, and reporting practices.
